Company Profile

Foshan Duci Building Materials Co., Ltd. ,founded in 2019, is a comprehensive ceramic enterprise which integrates product design, research, development and selling. Product range includes rustic tile, marble tile, mosaic and all the using materials which are related to ceramic. Projects and long-term cooperated customers are located all over the world, including Asia, Europe, America, Oceania and etc.

Over the years, following the pace and trend of the international ceramic market,we always keep the high standard for our customers who have good aesthetical standard in tiles' design and which request the tiles in perfect quality(including abrasion resistance,anti-slip rate and resistance to staining). Focusing on the design of products and the texture and the touching of the surface glaze, we constantly integrate the new technology to the tile's production in order to meet the highest standard of customers who have the perfect pursuit of products. Since the establishment, we have been committed to establishing a strict quality control system, and have built a complete scientific production inspection system, from the assessment of factory in advance, the development of design, testing of the final sample, and to the end, the mass production of tiles, all the needed procedures are under in strict control.

Foshan Duci Building Materials Co., Ltd. is located in Foshan, adhering to the integrity and professional quality service, welcome all the taeget customers from all over the world.
